

Dr. Bernhard Pospichal

Education

2009 Dr. rer. nat (Meteorology), Universität zu Köln, Germany
2005 Diplom (Meteorology), Universität Wien, Austria

Professional Experience

2016- Senior scientist, Universität zu Köln, Institut für Geophysik und Meteorologie, Germany
2010 - 2016 Junior professor, Universität Leipzig, Institut für Meteorologie, Germany
2010 Postdoc scientist, Universität für Bodenkultur, Vienna, Austria
2005 - 2009 PhD Student/Scientist, (Universität zu Köln, Universität Bonn and Ludwig-Maximilians-Universität München), Germany

Research Interests

- Microwave radiometry
- Remote sensing of water vapour and clouds
- Remote sensing theory
- Synergy of remote sensing methods

Selected Research Activities

- DFG Infrastructure project “JOYCE Core Facility for clouds and precipitation analysis from ground-based remote sensing”
- BMBF, HD(CP)², High-resolution cloud and precipitation processes from observations, Project O1, WP2 “Water vapour and entrainment rates”
- COST action TOPROF: Towards Operational ground based PROFiling with ceilometers, Doppler lidars and microwave radiometers for improving weather forecasts. Organisation of J-CAL (Joint Microwave Calibration Experiments) in 2014/2015 with the goal of harmonized calibration and error estimation for passive microwave radiometers.
- OCEANET program, Mobile Ocean Station of TROPOS: Measurements with remote sensing instruments on board of the German research vessels “Polarstern” and “Meteor”. Coordination of microwave radiometer measurements, chief scientist of Polarstern cruise PS98 in 2016
- AMMA – African Monsoon Multidisciplinary Analyses

Supervision of PhD Theses

2017 Andreas Foth Water vapor profiles from Raman lidar and Microwave radiometers
2016 Daniel Merk Indirect aerosol effect: diagnostics from combination of ground and satellite remote sensing data
